

Installation Instructions

- The 6386 Adapter Plate is designed to be used with the DL400 winch.
- Install Adapter Plate on inside of winch base with end of plate pointed downward.
- Fasten Adapter Plate to winch base using the (2) 3/8" bolts and nuts provided.
- The Adapter Plate may be used with any standard hitch ball (up to 2"), or attached to a post, tree, or bumper by using a short length of chain.

⚠ WARNING: This Adapter Plate and winch are built for mult-purpose hauling and pulling operations. It is not recommended for lifting applications.

⚠ WARNING: Operate Adapter Plate and winch with hand power only. This winch and Adapter Plate should not be operated with a motor of any kind. If the winch cannot be operated easily with one hand, it is probably overloaded.

NOT FOR THE MOVEMENT OF HUMAN BEINGS
